Yes the are loans from EPA or the state for drinking water or wastewater loans to communities...  
The coomunity sells bonds to repay loan normally...

**Kevin:**

**That is also my understanding but I will see if I can get Steve Mason's input on this as well.**

**Thanks**

Gary

It has been some time since I have heard of this. Can you give me any info on this? Our FCO for the West incident is asking me and I really do not have full understanding of this program. Wasn't it like a grant program for municipalities that were wanting to upgrade treatment plants?

PS. Will be on-site to hook up with you tomorrow (Monday).

Gary, Bert,

Are you familiar with this program and who would be the best person for this call?

You are being asked to sit in on a media call possibly Tues. by EPA at the announcement of the supplemental State Revolving Funds should there be questions on repair and restoration of wastewater treatment plants. They are preparing talking points butn should you agree to so this, we would prepare more on restoration. If you say yes, who else would you like at the call?

Hi Rafaela --

Sorry for the delay. Looping the JFOs. I'm not fully acquainted with this program, but I assume we would play a supporting role to EPA in any kind of announcement. Probably makes sense for Mike and Gracia to be the FEMA reps. I haven't seen any TPs from Brendan yet, but I can touch base with him on Monday.

Dan

Checking in – the event is Tuesday, so I want to make sure we get connected to them.

Thank you,  
Rafaela

EA/PA,

Please see below, and advise who our rep will be.

Thank you,  
Rafaela

Hi all –

We are looking to announce the state allocations and guidance on the supplemental State Water Revolving funds next week. I know that Vicky has been working with Brendan on timing and topline messaging. As part of the rollout, we are looking to do a press call. In thinking through questions, we think we may get questions on the actually repair and restoration of water and wastewater treatment plants and so thought it might be useful to have FEMA on the line to respond to those questions. We defer to y'all on the appropriate person and level – whether a HQ person or the NY/NJ leads – but thought it might be good. We are also happy to have Laurel or Shaun on the phone as well, if y'all think that is good. Thoughts?

Janet
